Continuation of 3. NOTE: the new limitation added to claim 1 requires further search and/or consideration.

Continuation of 11. does NOT place the application in condition for allowance because: The new limitation is a new issue and is not addressed here. Applicant has argued that Litman that woven fibers can not be equated with a mesh carrier. However, interwoven fibers are a mesh especially since applicant has no further description of "mesh" in the claims, therefore the broadest reasonable interpretation of the term "mesh" would include woven or interwoven fibers. Applicant has argued that Litman does not disclose a magnetically doped ink. However, Litman discloses that fibers are coated with permalloy (column 19, lines 28-55) and permalloy is a magnetically doped ink. Kaufer (US 3613100), not used in the rejection but simply used to show that permalloy is a magnetic ink, discloses that permalloy is a magnetic ink (column 18, lines 3-10)..
